## Stage Lighting Control Seminar

A new era in control

The theatrical lighting world has seen numerous innovations come from Electronic Theatre Controls (ETC) in the last 20 years. From the ETC Source 4 to the new theatrical rigging system, ETC is turning heads. In February we have Michael Harris coming to show their products including their newest lighting consoles. Come see why theatres both large and small are turning to ETC for their performance lighting control.

**February 9th 2010**  
**7:00pm - 9:00pm**  
**1069 Clarke Rd. London**  
**\$5.00 @ the door**  
(no need to register)
